Bienal de Poesía Experimental de Euskadi. 2008
Euskadiko Poesia Esperimentalaren Biurtekoa

In the autumn of 2006, The Única Puerta a la Izquierda (The Only Door to the Left) (L.U.P.I) organised the encounter between currents, tendencies and “operators” that had as uniting link that experimentation, and offered to the public, more than a simple exhibition that is unusual or showy, an intense debate about our complex cultural and artistic reality.

Today the Biennale of Experimental Poetry in Euskadi – EXPOSÍA 2008, recovers those “I jornadas...” celebrated in Barakalo in 2006, for its coordinators, in cooperation with Spazi Grossi and the Cultural Association L.U.P.I., have decided to organise the following
